

Who we are

Partners Steph and Jeff McCoy and Angie and Willie Whelchel reside in the beautiful Black Hills of South Dakota. They wish to provide exceptional service to employers and applicants throughout the hiring process. Supported by career public safety experts providing pre-employment background investigations; the team at 605 Services is committed to pairing applicants and employers to alleviate the stressors of the 'now hiring', 'short-staffed', 'trying to find-the-right-job' phase of the recruitment process.

The partners bring decades of human resources, business ownership and public safety experience to package services they know businesses need to be successful and applicants need to enjoy their new career transition.

605 Services has taken the hiring process a step further by partnering with community services that assist applicants during their career transitions and employers with retention. From housing connections to polygraph examinations, 605 Services has you covered.
